An uplifting celebration of the region's creative talent run by local artists. This year 127 artists are showing in 55 venues. Entrance is free to all venues/events and all are open at least 10-3 every day of the trail

The art trail is a celebration of the quality and diversity of visual art found within the Forest of Dean and along rivers Severn and Wye. Explore ceramics, book art, drawing, dried flower art, painting, printmaking, enamelling, jewellery, paper art, photography, sculpture, stone carving, wood carving, wire work, pyrography, glass, cyanotypes, mosaics, willow weaving, basketry, furniture, wooden kitchenware, artist film, laser engraving, silversmithing, blacksmithing.

Venues range from artists' homes, studios and gardens to pop-up exhibitions in cafes and galleries.

Visiting working studios gives you a fascinating insight into artists' creative space. What's more, artists enjoy chatting about their work and their inspiration, especially when they can also show how they work.

.... venues

Studios are listed in alphabetical order by first name or **business name**. Plan your route using the map and index, or leaf through the brochure, noting studio numbers, then find them on the map. You can also search our interactive map and digital brochure on farOpen.co.uk.

There are What3Words identifiers for venues, preceded with ///. When using W3W, after finding your location, go to NAVIGATE. This gives you a choice of navigation tools like Google Maps. There will be ample signage for each studio.

.... an artist I know

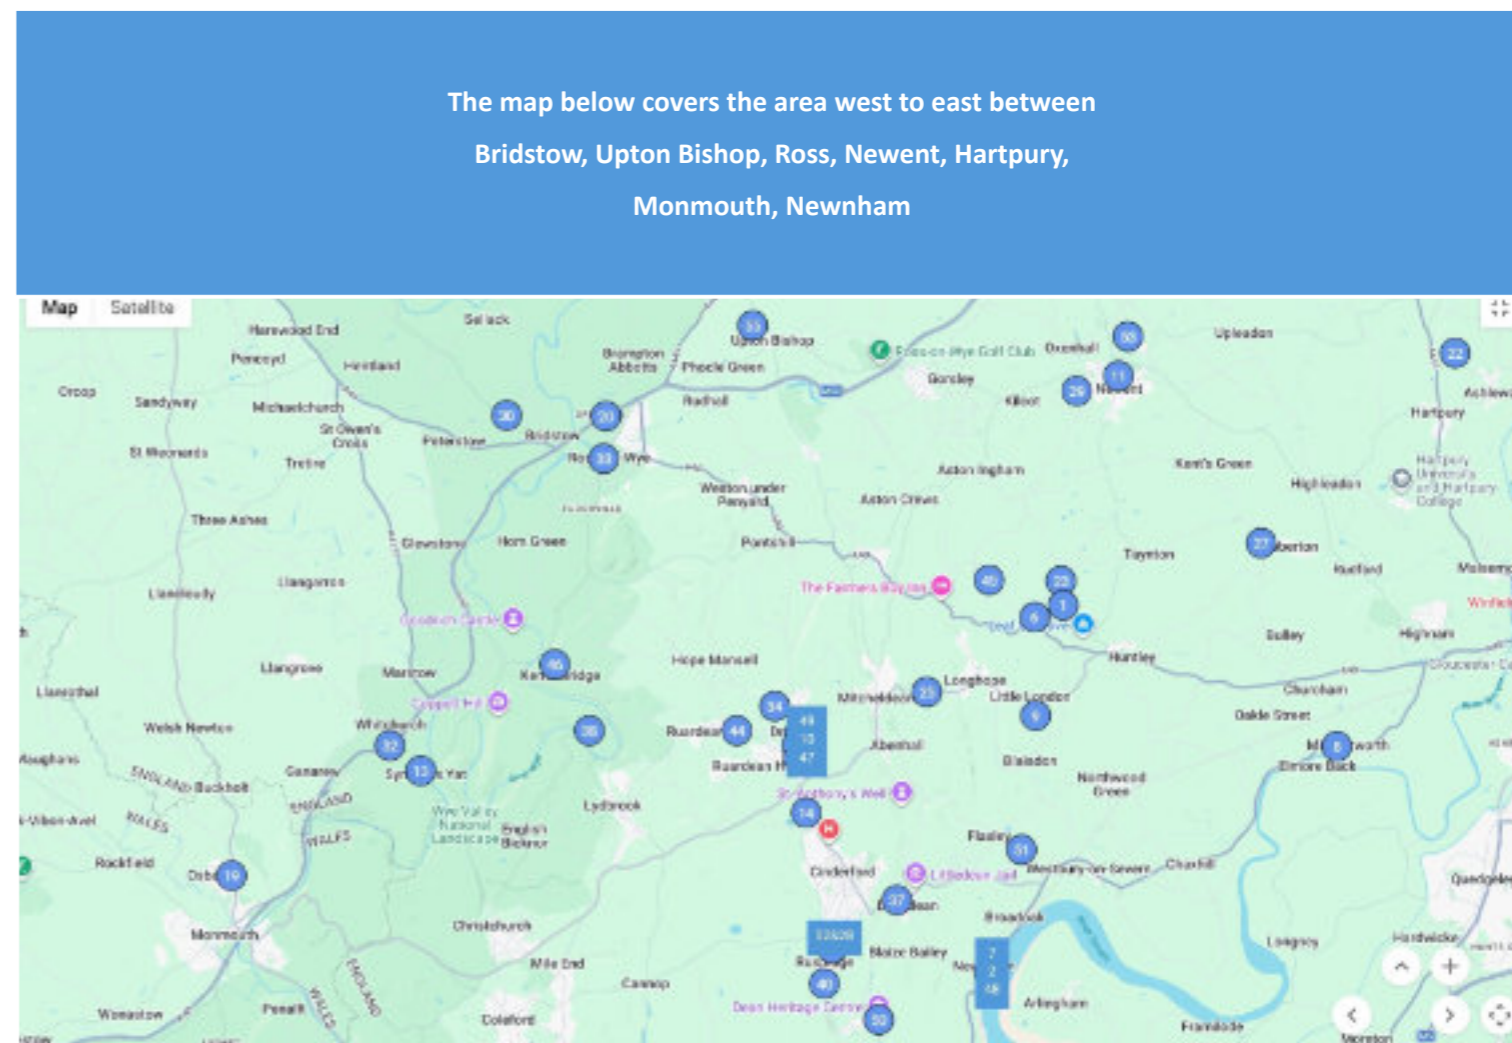

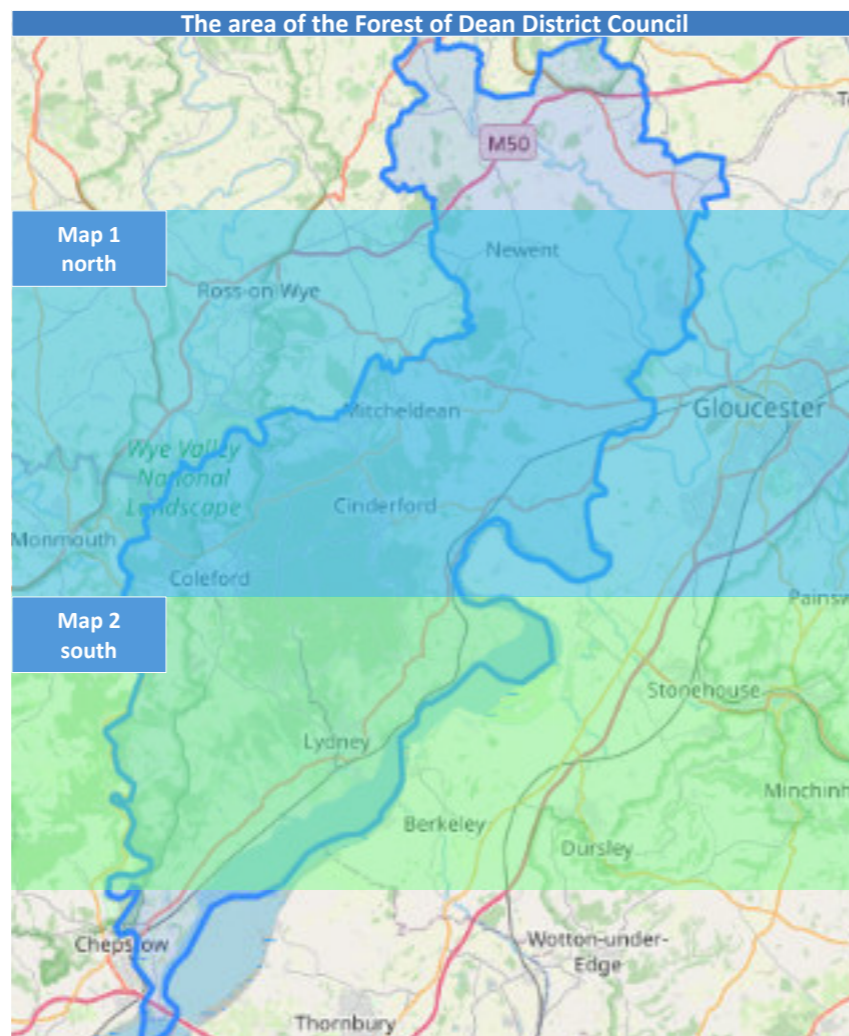

Go to the index of artists and times.

.... opening hours

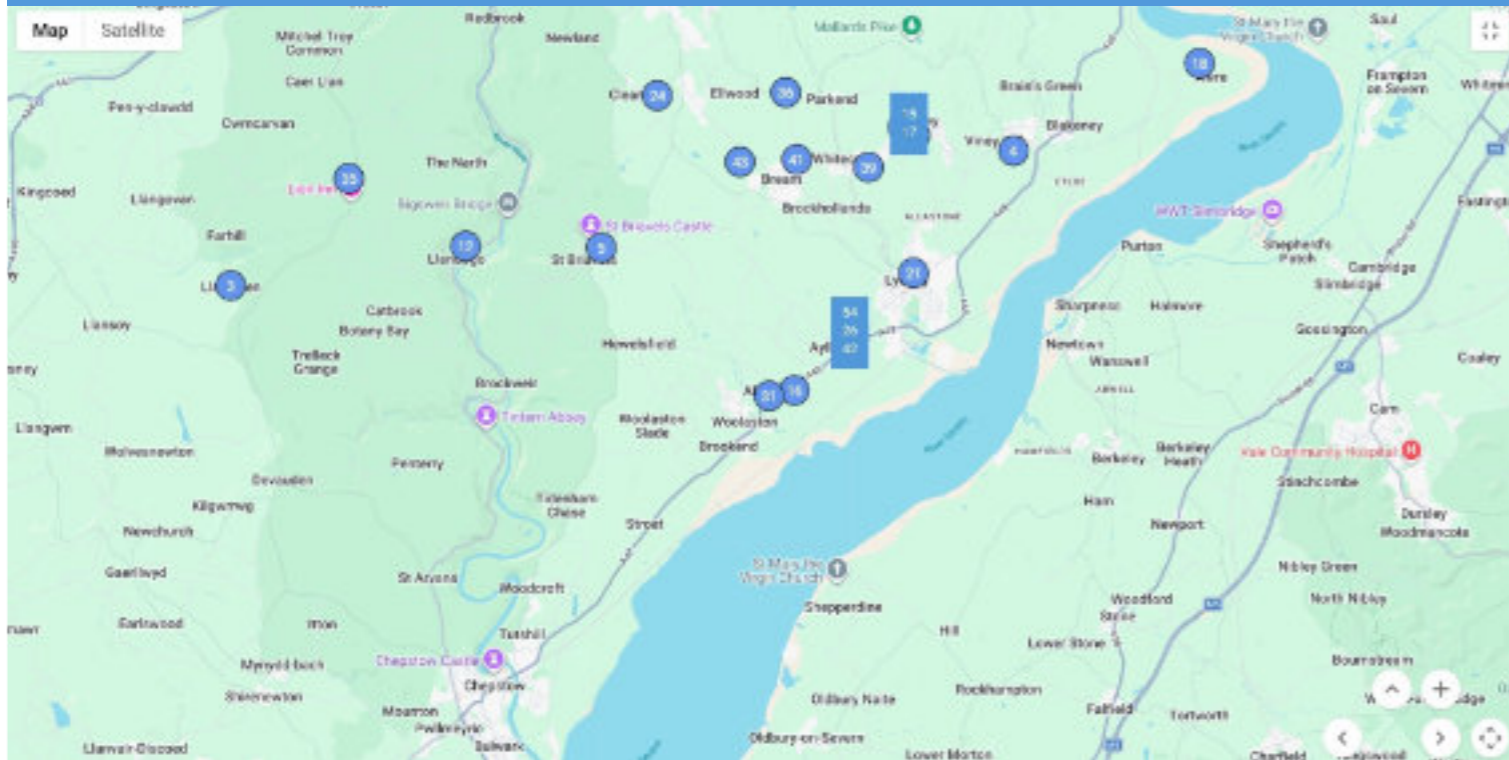

Core opening hours are 10-3 every day of the trail, but many venues will be open longer. Please check studios you wish to visit, either on the artists' entries or in the index at the front.

.... workshops/demonstrations/events

There is an index of **studios holding workshops and demonstrations** during the art trail.

I have been working in glass for 14 years and yet remain fascinated by the wide range of the colours, textures and techniques which the material allows for. Glass can be altered in many ways through kiln-work, allowing it to change shape, colour and texture just through the careful and considered application of heat. My work continues to be dominated by colour, and ranges from bowls, vases, decorative hangings and wall-art.
